@moizhraj In order to enable solutions to be packed as managed you need to have the managed unpacked files available. If you don't have these then you will not be able to pack as managed/both. My suggestion would be to ensure that when you export and unpack your solution from your development environment, you do this for both a managed and unmanaged solution.

From high-capacity lithium-ion batteries to advanced energy management systems, each solution is crafted to ensure reliability, efficiency, and longevity. We prioritize innovation and quality, ...
