

Companies that use solar energy DR Congo

Who is Congo energy?

Exclusive distributor of PRAMAC products in the DRC, Congo Energy offers a wide range of reliable and efficient generator sets. Our energy solutions cover various sectors, from light industry to specific infrastructures such as health and data centers. Thanks to our expertise, we offer tailor-made solutions and efficient after-sales service.

Could solar power be the future of energy in Congo?

Congo is one of the top five oil producers in Sub-Saharan Africa. But despite its rich energy resources, the electrification rate is low, especially in rural areas, mainly because of a lack of electricity infrastructure. But solar power could be the future as it is also said to be cheaper for households.

How many Solar Ambassadors are there in the DRC?

We have 3,500+ Solar Ambassadors in our network, working across 22+ provinces. Between them, they distribute 10,000+ products every month. 90% of Congolese people lack access to electricity. We want to see energy poverty eliminated in the DRC by 2030. Our cost-effective systems help off-grid customers power a wide range of appliances.

How will Nuru empower 5 million Congolese people?

By delivering world-class renewable energy and connectivity services, Nuru aims to empower 5 million Congolese people, one connection at a time. Moving ahead, it will be important to strengthen the public sector and the government's capacity for cross-unit delivery in order to effectively finance renewable energy mini and metro-grids.

Nuru, which means "light" in Swahili, is a company that aims to improve connectivity in the DRC. In 2017, Nuru successfully launched Congo's first solar-powered mini-grid. It also has a 1.3MW solar hybrid site in Goma, which is currently "the largest off-grid mini-grid in sub-Saharan Africa."

Congolese solar panel installers - showing companies in DR Congo that undertake solar panel installation, including rooftop and standalone solar systems. 10 installers based in DR Congo are listed below.

Indian renewable energy firm Soleos Energy - in collaboration with electrical engineering company Melci Holdings - has launched construction of a 200 MW solar park in the Democratic Republic of the Congo (DRC).
