

What is a DIY+ solar kit?

Our DIY+Solar Kits give you full control to install and customize your own solar system. Perfect for hands-on projects,you'll save on installation costs while enjoying flexibility and expert support. Build it,monitor it,and expand it on your terms. Ideal for those wanting a hassle-free,professional solar solution.

Why should I buy a DIY+ solar kit?

Take charge of your solar install and save thousands. Easily monitor and maintain your system with confidence Lifetime customer support + guides, videos and help. Our DIY+ Solar Kits give you full control to install and customize your own solar system.

What do I need to install a solar system?

\*Our kits include just about everything you will need. However,you need your own installation toolsand grounding rods/wire as well as optional components like surge limiters,and breaker panel/s. We also strongly recommend getting a certified solar installer and/or master electrician for professional installation.

Is shopsolar a good solar system?

ShopSolar's Delta Pro and roof-mounted panels were the perfect solution. Setup was easy,and the kit included everything needed. The Delta Pro powers my cameras,lights,laptop,and a small fridge with impressive battery capacity. You folks have been wonderful guiding me through the ins and outs of going solar.

What type of battery cable do I need for a photovoltaic installation?

All photovoltaic installations must be equipped with DC isolators per IEC 60364-7-712. Signature Solar offers 1 AWGbattery cables designed to outlast and outperform any other cables on the market. These are American Made and Manufactured. 1 AWG Battery Cable UL MTW/THW/SGT Flexible with ends,5/16 inch (M8) connector end.
