

ACIS is a multi-skilled firm with practical experience in applications related to petrochemical, mining, paper, and power generation. Our fully furnished workshop enables us to refurbish and repair equipment that we supply. As far away as Madagascar, we also perform on-site maintenance on our equipment. [read more](#)

ENERTEC MADA's mission is to revolutionize the energy landscape of the Indian Ocean Islands by delivering innovative and reliable solutions. Committed to promoting clean energy, reducing carbon footprints, and ensuring an uninterrupted power supply for our clients, we aspire to set new benchmarks in sustainability and efficiency.

From cost effective flow computer solutions to custom designed redundant metering houses; Full project responsibility from design to on-site commissioning and training; Seamless integration of KROHNE and 3rd party equipment

This explainer explores why Watford Control voltage stabilizers are essential in Madagascar, focusing on their role in improving power quality, enhancing equipment longevity, supporting industrial growth, and fostering economic development.

POWER TECHNOLOGY (Madagascar) a été créée en 2008 afin d'allier la protection électrique avec le contexte local de l'Energie. Elle commercialise en même temps une gamme complète d'équipements solaires photovoltaïques ; usage professionnel et individuel.

SEI AG provided the off-grid control/power cabinet, which is an Xtender Power AC3548 system with additional DC input for the wind generator and load shedding contactor for low-priority AC appliances, the PV generator with 1.68kWp and a battery bank with 11kWh capacity.

We offer Solar Hybrid-Off Grid Systems for reliable, independent power, UPS & Data Centre Power Management for continuous optimal power, and custom Design & Installation of Irrigation Systems. Additionally, we provide Solar Water Pumps for energy-efficient water pumping, Power Backup & Energy

Storage Systems for backup power, and Solar Heating ...

Hindustan Power Control System is one of the growing Servo Voltage Stabilizer Manufacturers in Madagascar that you can consider for buying a wide range of Stabilizer, Transformers, Servo Voltage Regulator, E-Rickshaw Battery Charger, Distribution Panel and more. Our range is manufactured at our facility by keeping our tab on the industry standards.

With the Madagascar Emergence Initiative, the government wants to increase the country's electrification rate to 50% by 2030 and double electricity production, notably via the installation of solar and hydraulic power plants.

As a pioneering manufacturer of motion control components for Original Equipment Manufacturers, build high-performance motion control motors and drives for a broad range of applications where precise control of position, speed, and torque is required.
