

Creative Power Solutions (CPS) is an engineering company that provides clean technology solutions for the power generation sector. It offers site and project management, energy audits, plant construction, consulting, and other services.

The company's application-based technology product development history and expertise are utilized to design and develop high end cost effective customized solutions for power generation, as well as for energy optimization of plant performance; operation and maintenance of sustainable solutions for power generation; state of the art ...

Creative Power Solutions specializes in advanced power generation technology and energy efficiency within the power generation sector. The company offers services like product development for turbomachinery and steam boilers, engineering for power plant efficiency and emission reductions, and customized solutions for power generation.

We offer a wide range of electrical engineering services, including power distribution, lighting design, renewable energy solutions, and more. Our team of engineers has the expertise to handle projects of all sizes and complexities.

We base our services to our customers on Expertise in power generation technology and energy efficiency. Decades of experience in advanced product development. A long track-record in technological innovation and Unique engineering capabilities and state-of-the-art tools

Creative Power Solutions is a group of engineering companies in the sector of Power generation and Energy utilization. Our mission is to provide advanced, efficient and customized technology solutions to clients ranging from Original Equipment Manufacturers (OEMs) to Plant operators and Energy consumers.
