

What is Ske crystal plus pod system?

The SKE Crystal PLUS Pod System is a rechargeable starter pod kit that's fitted with an internal battery that won't take long to charge - this way, you just have to replace the pre-filled pods when the coils are spent. Each pod is fitted with high-quality coils that are enhanced to deliver a consistently rich flavour.

What is Ske crystal plus?

A 'Greener' Alternative The new SKE Crystal Plus pod system is a disposable pod kit optimised for your financial benefit as a streamlined substitute to disposable vapes. The pod systems are designed to deliver the classic SKE taste from Crystal Bar disposables and SKE nic salts in easy-to-switch pre-filled pods.

Is the Ske crystal plus your go-to everyday vape?

With so many different vape brands releasing their own versions of prefilled pod kits lately, it's been hard to keep up. But one pod kit in particular has managed to capture my undivided attention and become my go-to everyday vape-- the SKE Crystal Plus.

Is Ske crystal plus eco-friendly?

With a built-in 400mAh battery and USB-C fast charging, the SKE Crystal Plus ensures minimal downtime between vaping sessions, reducing both environmental impact and financial costs. It's an eco-friendly and budget-conscious choice for vapers who want to reduce their carbon footprint while enjoying high-quality vape sessions.

What is a crystal plus e-liquid pod kit?

So, let's cut to the chase and dive right in! The Crystal Plus is what's known as a prefilled pod kit, which means it is compatible with prefilled pods. So, with no e-liquid refills or messy coil changes to worry about, I simply attached my chosen Crystal Plus pod to the device thanks to the sturdy magnetic connection.

How much Nic salt e-liquid does a crystal plus pod hold?

So, with no e-liquid refills or messy coil changes to worry about, I simply attached my chosen Crystal Plus pod to the device thanks to the sturdy magnetic connection. Each SKE Crystal pod holds 2ml of nic salt e-liquid, which is around the same amount found inside your average disposable vape.

The 2ml pod capacity paired with the 400mAh battery easily covers me for an entire day of vaping, so when I leave the house with my trusty Crystal Plus, I can rest assured that it won't run out while I'm on the go.
