

What is photon energy?

Clean energy and water. The fundamentals of life. Photon Energy Group is a group of companies with a shared mission: making clean energy, clean water and clean environments accessible to all. Photon Energy and Lerta provide comprehensive renewable energy solutions, including solar power and energy flexibility.

Who are photon energy group?

Our co-founders Georg Hotar and Michael Gartner share the origins and history of Photon Energy Group. Photon Energy is founded. We are listed on the NewConnect market of the Warsaw Stock Exchange. We construct our first PV projects, including our first proprietary power plant in the Czech Republic.

How did photon energy perform in the first quarter?

Expanded Photon Energy's O&M portfolio by over 40 MWp, bringing its global O&M portfolio to above 720+MWp as of the reporting date. In the first quarter, Photon Energy Group's consolidated revenues amounted to EUR 17.375 million, compared to EUR 19.280 million a year earlier, marking a decrease of 9.9% YoY.

Can photon energy group deliver a positive trajectory in the coming quarters?

With the above changes in place, we feel more confident that we can promise a more positive trajectory for our Group's business in the coming quarters," said Georg Hotar, CEO of Photon Energy Group. Generated 30.2 GWh of clean electricity, up by 24.2% YoY, on the back of new PV assets constructed and connected to the grid in Romania.

Where is photon energy headquartered?

Photon Energy Group is headquartered in Amsterdam, with offices in Australia and across Europe. Martin Kysly Head of Marketing and Corporate Communications Tel. +420 774 810 670 E-mail: martin.kysly@photonenergy.com Joanna Rzesiewska Investor Relations Manager Tel. +420 777 486 464 E-mail: joanna.rzesiewska@photonenergy.com

In the first quarter, Photon Energy Group's consolidated revenues amounted to EUR 17.375 million, compared to EUR 19.280 million a year earlier, marking a decrease of 9.9% YoY. Revenues from electricity generation reached EUR 3.746 million, a contraction of 9.7% YoY, primarily due to lower average realized electricity prices, which declined ...

Photon Energy Group is a group of companies with a shared mission: making clean energy, clean water and

clean environments accessible to everyone. Comprehensive solutions to support the generation of clean energy and the successful integration of renewables into our power supply.

We provide customised, comprehensive solutions directly to energy consumers to help them integrate renewables into their energy supply. Our solutions help consumers increase energy security and meet sustainability goals.

energy storage solutions. Technology We procure and trade PV components to fit any project's location, design and budget. Operations and Maintenance We provide a full range of O& M services, including monitoring and inverter maintenance. Electricity Generation We invest in PV power plants for the sustainable production and sale of solar energy.

We offer comprehensive solutions to help both energy generators and consumers make the most of the energy transition. We are also an independent power producer: we own and operate PV installations around the world.

energy storage solutions. Technology We procure and trade PV components to fit any project's location, design and budget. Operations and Maintenance We provide a full range of O& M services, including monitoring and inverter maintenance. Energy Generation We invest in PV power plants for the sustainable production and sale of solar energy.

Photon Energy and Lerta provide comprehensive renewable energy solutions, including solar power and energy flexibility. Photon Water offers water treatment and management solutions, and our remediation technology removes contaminants from water and soil.
