

In 1975, its coloniser Spain sold it to Morocco and Mauritania in exchange for continued access to Western Sahara's rich fisheries and a share of the profits from a lucrative phosphates mine.

Morocco drives renewable energy projects in Western Sahara. Morocco has claimed authority over Western Sahara since 1975, but the UN does not recognise Moroccan control, calling Western Sahara a "non-self-governing territory." The UN has called for a referendum to decide the region's future.

African Energy has identified projects requiring the installation of at least 72GW of wind and solar generation, and more are likely to follow. Morocco gears up for green hydrogen push in disputed Western Sahara | African Energy

African Energy has identified projects requiring the installation of at least 72GW of wind and solar generation, and more are likely to follow. Morocco gears up for green hydrogen push in disputed Western Sahara | ...

The strategic focus on green hydrogen aligns with the increasing recognition of hydrogen's potential as a clean and versatile energy carrier. The chosen location for this ambitious project is the Dakhla-Oued Eddahab region, situated in Western Sahara.

Morocco is often lauded as a trail-blazer in the switch to more renewable energy sources. What is often overlooked, is that a significant portion of Morocco's wind and solar projects are not being developed in Morocco at all - but in occupied Western Sahara.

Morocco drives renewable energy projects in Western Sahara. Morocco has claimed authority over Western Sahara since 1975, but the UN does not recognise Moroccan control, calling Western Sahara a "non-self-governing ...

A Moroccan energy ministry official revealed plans this week to build 1.4 gigawatts of new wind and solar power in the disputed region of Western Sahara by 2027, according to Bloomberg. This initiative will nearly double the ...
