

## Customized wall mounted photovoltaic glue board

What type of adhesive is used for solar panels?

Made with double sided, industrial strength adhesive or our custom hybrid system. High tack adhesive film protects photovoltaic module glass, aluminum, and various metals from damages. Use our residue-free film tape during shipping, handling, and production line processes. PROTEK(TM) film solar tape also resists UV and outdoor aging up to 6 months.

What is the best adhesive for rigid panels?

For rigid panels, the best adhesive would be M6 bolts. These are rigid panels being mounted on aluminium brackets. I'll actually be replacing one of the factory panels and notice they only use adhesive. M6 bolts make sense for strength, my concern is they introduce an entry point for moisture.

Are elemex solar panels UV resistant?

As the panels are UV- resistant, they maintain their appearance over time. Attachment Technology: a proprietary integrated attachment technology developed and perfected by Elemex to panelize, mount and seamlessly integrate a variety of surfaces such as: Solar, Natural Stone, Sintered Ceramic, ACM, Aluminum Plate, and other specialty veneers.
