

What are the top solar panel brands in 2024?

February 13, 2024 - Today, SolarReviews released its annual solar panel brand ranking list, and Qcells has been crowned the top solar panel brand for the second year in a row! Details around the ranking list can be found here, but here is a quick snapshot of the top 2024 solar panel brands:

Who makes the best solar panels?

Panasonic: Panasonic, a leader in home electronics, is also a top name in the solar industry. Its solar panels and battery both made it on our "best of" lists because of their top quality and great performance. However, the company falls behind regarding U.S. investment and doesn't manufacture its own panels.

Is JA Solar a good solar company?

Though one of the cheapest solar panels we reviewed, JA Solar's Tier 1 status signifies the company's profitability. While there may technically be cheaper solar panels on the market, few can match the reliability and brand reputation of JA Solar.

What are the best solar panels in China?

Fourth on our list is JA Solar, a Chinese solar brand known for its low prices and reliable products. At an estimated cost of \$2.65 per watt installed, JA panels stand significantly below the national average solar installation cost of \$3.00 per watt, earning them the title of the best value panel in our ranking.

Is Canadian Solar a good choice?

Canadian Solar has long been a favorite choice of solar installers and landed in fifth place on our list, thanks to its industry success, financial performance, and low price. As one of the highest scorers in our market share category, it earned the title of best solar panel availability.

Why is silfab a top rated solar company?

Our significant rise in the ranking is a testament to Silfab's long and successful made-in-America production of high-performing, durable solar modules. For decades, Silfab's core philosophy is to utilize best-in-class technology and superior quality control to deliver next-generation solar for residential and commercial customers.
