

Dominica already has substantial geothermal, solar and wind power capacities making the island an ideal location for energy generation from these resources. Those looking to invest in renewable energy will find a welcoming and ...

Los paneles convierten la energía solar en electricidad. Hasta aquí, estamos claro, ¿Sí o no? ¡Ahora! Existen tres tipos de sistemas solares fotovoltaicos. Primero, hablaremos del Grid-Tied o Conectado a la Red. Este sistema le permite a usted como cliente, consumir energía de la distribuidora, y al mismo tiempo, exportar la energía producida por los paneles a la distribuidora.

Based in Dominica, we offer products, installation and maintenance services. We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact one able to power a simple phone/laptop/ tablet and a few bulbs, to larger solar systems tailored to power entire homes or businesses such as resorts.

Based in Dominica, we offer products, installation and maintenance services. We offer a range of solar systems specially designed and tested for tropical conditions, from the most compact one able to power a simple phone/laptop/ ...
