Should you buy a solar PV system in Barbados?

One of the biggest, if not the biggest hurdle to further solar PV penetration in Barbados is the upfront cost of a system. When you think about the fact that the cost is essentially the prepayment of 25-30 years worth of electricity it makes sense that the price is "high". If you could purchase a ... Continue reading ->

Can Barbadians earn passive income from solar panels?

Now a very similar model is available in Barbadoswhich allows Barbadians to own solar panels within an operating solar project and thereby earn solar passive income for 25 ...Continue reading -> Getting involved in the funding of the global solar power transition has never been easier.

Photo credit: CloudSolar Inc. In 2020 I wrote a review about the Sun Exchange, the world's first peer-to-peer solar panel micro-leasing platform which powers solar projects primarily in South Africa.Now a very similar model is available in Barbados which allows Barbadians to own solar panels within an operating solar project and thereby earn solar ...

The Barbados Light & Power Co. Ltd. contributes to the national grid with a 10 MW per day photovoltaic (PV) solar plant in St. Lucy, complemented by 25 MW of customer-owned solar rooftop generation. Despite the lower hurricane risk in Barbados, climate change poses potential threats.

Jurchen Technology, a German-based manufacturer of racking and direct current (dc) cabling solar power plants, in partnership with Blue Circle Energy, a renewable energy developer based in Barbados, signed a Memorandum of Understanding (MOU) for the construction of a 60 MW portfolio of solar generation projects across Barbados" 11 parishes.
