

How big will Algeria's solar projects be?

The projects will range in size from 80 MW to 220 MW. The Algerian government has released a list of the developers it has selected for 3 GW of solar tenders it finalized earlier this month. It allocated the capacity as part of a 1 GW scheme launched in late 2021 and a 2 GW tender initiated in February 2023.

How much solar power does Algeria have?

Algeria targets the installation of 22 GW of renewable energy capacity by 2030, constituted mainly by solar PV (62%) and wind (23%). Despite being home to solar irradiation levels that are among the world's highest, Algeria's solar PV capacity stood at only around 450 MW as of end-2022. Which Algerian companies have been awarded solar projects?

The rest of the projects have been awarded to Algerian companies, sometimes in partnership with foreign groups. Consider Canalisation-Fimer SPA will develop two solar plants at Kenadsa in the Bechar Wilaya (120 MW) and in the Toggourt Wilaya (150 MW).

When did Algeria start a solar auction?

Algeria's 2 GW solar auction was launched in February 2023 and Sonelgaz shortlisted 77 offers in July 2023. In 2022, solar accounted for around 1.4% of Algeria's installed capacity (with 460 MW) and less than 1% of its power mix (with 642 GWh). Do you want to become an expert on renewable energies auctions?

Who won the Algerian solar tender?

The tender attracted 20 bidders and a total of 77 offers. Representatives of Algerian state-owned utility Sonelgaz have signed 19 contracts to build 20 solar projects. For the 1 GW tender, the winners were Animer Energy, which secured two projects with capacities of 50 and 100 MW, and Turkish contractor Ozgun, which won a 300 MW project.
