

Who is Ekotek energy?

Ekotek Energy is one of the leading solar products manufacturing company around the world. We focus on offering reliable and cost-effective solar products designed to improve the lives of people who do not have access to the electric grid.

How to buy a solar system on Sint Maarten?

Many banks already offer so-called "green loans", financing the purchase of your solar system on Sint Maarten for a monthly installment that may be even lower than the monthly price you pay for electricity now. Even the calculation below is as up to date as possible, it is still an indication.

How much does electricity cost on Sint Maarten?

On Sint Maarten, the costs per kWh calculated in 2012 is ANG 0,73. If you are a home owner, commercial property owner or owner of an industrial building on Sint Maarten, please have a look at your electricity bills and calculate the average amount of kWh you use and the money you spend on electricity per year.

Why should you choose Ekotek?

Our products provide powerful illumination as well as the ability to recharge other electronics at the same time, such as mobile phones, tablets, and other communication devices. At Ekotek, we understand that access to power is a basic need for all, and that it is closely connected with human development.

A summary of Sint Maarten's solar markets In 2014, Sint Maarten's council of ministers sanctioned the National energy policy document. This document was supposed to usher in a new era of renewable energy in the Caribbean Island country. More specifically, the policy document envisioned an 80% renewable energy capacity by 2020. Unfortunately, none of the targets ...

This omission could hinder the growth of decentralised renewable energy generation and limit the benefits of solar energy expansion. Encouraging decentralised solar energy production could significantly contribute to St. Maarten's overall energy mix, reducing strain on NV GEBE's infrastructure and fostering a more sustainable energy ...
