

What is ellexsys?

ellexsys; combines an advanced power electronics device with AI software to unleash the full potential of clean energy.

Who is ellexsys energy?

We take a holistic approach to energy management, focusing on the commercial and industrial sectors, educational and health organisations and government facilities. ellexsys Energy was founded to deliver large scale commercial rooftop solar installations to create a cleaner, greener distributed energy future.

Where is ellexsys energy located?

ellexsys Energy established offices in the USA, Europe and the Asia Pacific, and new partnerships to enable rapid global expansion. An international investment banking and financial services company was engaged to assist with capital raising and more award wins were achieved.

The ellexsys(TM) package solution combines software as a service (SaaS) energy software and a unique grid edge device to improve the stability and capacity of electricity networks and remove the need for complex upgrades to existing electricity grid infrastructure.

ellexsys Energy plc is a leading power electronics company employing artificial intelligence in our ellexsys technology that is integrated into our client's clean energy solutions to significantly improve the return on investment for rooftop solar and battery in commercial and institutional sectors, and mitigates the grid voltage problems that are challenging grids around the world as ...

The least-cost energy pathway modelled by Ember sees Czechia deploying new wind and solar at a speed and scale already achieved by other EU countries, as well as developing a more modern and efficient heating system. A 2030 coal phase-out would invest in Czechia's future economy and enhance its international reputation as it delivers ...

London-based cleantech energy company ellexsys Energy has developed a unique technology to drive the transition of global energy grids to a clean energy future. Now, the company raised £640K through Angel Investment Network, the world's largest online angel investment platform.
