Eesti Energia t&#252;tarettev&#245;te Enefit Solutions toodab Austraalia suurimale paberitehasele Australian Paper Maryvale Millile gaasik&#228;ike ja muid seadmeid. Enefiti juhatuse esimees Ott Licht &#252;tleb, et 60-aastase kogemusega firma tooted on ...

Future-oriented products and industrial solutions for the circular economy. We are developing a zero-carbon chemical industry based on a circular economy. In this way, we will gradually replace the production of liquid fuels with the production of plastics and compounds for other industries.

Within the Eesti Energia Group, Enefit Solutions (former Eesti Energia Tehnoloogiat&#246;&#246;stus - Eesti Energia Technology Industries) is a manufacturer and supplier of metal structures, energy industry machinery and other industrial equipment offering a wide range of competitive and environmentally sustainable technological project solutions for ...

Enefit Solutions (former names: Eesti Energia Tehnoloogiat&#246;&#246;stus and Energoremont) is an engineering company in J&#245;hvi, Estonia. It is a subsidiary of Eesti Energia. The company designs and manufactures equipment in the fields of energy and industry and offers erection and maintenance services as well as comprehensive technological solutions.

Enefit Solutions (formerly known as Eesti Energia) is a manufacturer of metal structures and equipment. It provides design, project management, installation, insulation, heat treatment, maintenance, pressure washing, testing, and other services. The company caters to the mining and energy sectors.

The international energy company Enefit has partnered with Solaride, becoming a member of the non-profit organisation that develops solar cars. This collaboration aims to build a winning car for the World Solar Challenge in Australia, advance innovation in the energy sector, and make engineering studies more appealing to young people.
