NexSys&#174; TPPL batteries are custom-made for your energy needs, 99% recyclable and include intelligent data management tools. NexSys TPPL battery solutions last longer and are more reliable, providing productivity and energy throughout their entire cycle life.

Featuring pure lead, NexSys PURE battery grids are thinner, with more surface area for more power. The very fine grain structure further boosts power by reducing resistance, even while resisting corrosion.

That's why we developed NexSys &#174; PURE batteries. By providing simpler, more productive, predictable power, virtually maintenance-free NexSys PURE batteries give material handlers a way to reduce overall Total Cost of Ownership (TCO), and focus more time on ...
