

Germany's Entrix GmbH was an EM-Power AWARD 2024 finalist for its Battery Optimization Platform solution, which leverages battery storage to stabilize the grid and respond to frequency fluctuations. While the growing number of solar and wind farms contributes to the renewable energy mix, it also increases the complexity and unpredictability ...

The Munich-based company Entrix wants to lead the energy industry into the next phase of the energy transition through the optimised use of battery storage, marking its entry into physical electricity trading. Solution; ... Markus Lauko from Doberlug-Kirchhain Batterie GmbH, the owner of the Brandenburg asset and Entrix's cooperation partner ...

Blue Elephant Energy and Entrix successfully launch their collaboration on the first battery storage project in Blue Elephant Energy's portfolio. Blue Elephant Energy GmbH has started construction on its first battery storage system with a capacity of approximately 12 MW in Germany, which is scheduled to go into operation in the fourth ...

Entrix is an optimization and trading platform for grid-scale battery storage that accelerates the transition towards a clean energy future. Our Mission Our mission is to enable the most effective use of green energy and to ensure the reliability of the future energy system. We provide state-of-the-art technology and services to both asset owners a

06 / 09 / 23 Entrix wins new investors. Energy Tech Firm Entrix wins new investors to accelerate development of its AI-powered optimization solution for battery storage and renewable energy ABACON CAPITAL, Enpal,...

Entrix is a Munich-based start-up, our intelligence enables the energy transition and unlocks the full value of flexible energy assets such as large batteries. And therefore, we need you: A forward-thinking and experienced Senior Tech Recruiter who will contribute to the growth of Entrix by attracting, creating an excellent candidate experience ...

Die Firma Entrix GmbH mit Sitz in München ist im Handelsregister beim Amtsgericht München unter dem Aktenzeichen HRB 269431 registriert. Das Unternehmen ist mit der Rechtsform GmbH eingetragen. Das Unternehmen ist aktiv.

Enpal and Entrix have joined forces under the joint venture Flexa to introduce a next-generation Virtual Power Plant (VPP) for residential households. This pioneering initiative connects solar panels, home battery storage systems, electric vehicles, and heat pumps into an intelligent, decentralized energy network. By optimizing energy use and market participation, the VPP ...

The technical storage or access is strictly necessary for the legitimate purpose of enabling the use of a specific service explicitly requested by the subscriber or user, or for the sole purpose of carrying out the transmission of a communication over an electronic communications network.

What does it take to stay below 1.5°C global warming? Until 2050, we need to generate 8x more renewable power across the globe than today. The resulting volatility in power generation causes enormous challenges for electricity grids.

The Entrix team supported us along the entire development process from the design and due diligence phase during our acquisition up until the successful sale to its today's owners. Their deep battery and energy markets expertise for example helped us to define the battery configuration and warranty parameters with the hardware manufacturer."

Being a part of the Entrix Team means working cross-functionally in its true sense. To provide an all-round solution to our customers, we ensure to bring all functions together under value-driven domains where they can shape all components of the product together.

Enpal and Entrix have just launched their new Virtual Power Plant (VPP) which brings advanced energy optimization and market participation to residential households, unlocking... 29 / 08 / 24 New 12 MW Battery Storage Project with Blue Elephant Energy

Dont't want to miss the next Entrix knowledge piece? Subscribe to our newsletter below and stay on top of the energy market & battery optimisation. References. Merten, M. (2020). ... Entrix GmbH. Leopoldstra#223;e 20. 80802 Munich. Germany. Follow us on LinkedIn

Entrix is a registered energy trader and acts as a service provider for the owners of energy assets. In doing so, Entrix collaborates closely with renowned companies in the energy sector such as Deutsche Kreditbank AG (DKB) on financing, Aurora Energy Research in market analysis, and suppliers of storage systems.

We build AI-based algorithms that optimize the value of a battery everyday anew. At Entrix, we place the flexibility of batteries in the right markets, at the right times to the best prices while considering battery lifecycle and degradation costs. Thus, we contribute to keeping the electricity grid stable. In the future, we aim to optimize all sources of flexibility in the system ...
