

What happened in Escondido?

The city of Escondido issued a mandatory evacuation order for the surrounding businesses in the area and the local fire department was sent to the scene. In a statement, SDG&E spokesman Anthony Wagner said the fire erupted in one of 24 battery containers on site. There are no reported injuries.

Should Escondido pause the building of new energy battery storage sites?

A pause on the building of new energy battery storage sites would undermine the county's commitment to its new Climate Action Plan. SDG&E's Chris Le opens reveals the inside of a battery energy storage system in Escondido. The 30-megawatt facility was built in 2017, the largest of its kind at that time on Sept. 5, 2024.

What happened on Enterprise Street in Escondido?

Editor's note: Minutes after this story posted, a 30-megawatt SDG&E battery storage facility on Enterprise Street in Escondido caught fire. The city of Escondido issued a mandatory evacuation order for the surrounding businesses in the area and the local fire department was sent to the scene.

Where should AES be located in Escondido?

AES' desired location is on an old horse ranch just outside of central Escondido. A small subdivision, wineries and a handful of business catering to animal care surround the perimeter. It's a good location, the company says, because it's near a large substation which batteries need to be close to in order to connect to the grid.

Are Bess projects a nuisance?

Stephani Baxter, a Fallbrook Community Planning Group member, said there are two BESS projects in her community, one of which is near a watershed. She described them not only as a noise nuisance, but also the cause of light pollution and lowered property values.

The city of Escondido issued a mandatory evacuation order for the surrounding businesses in the area and the local fire department was sent to the scene. In a statement, SDG& E spokesman Anthony Wagner said the fire erupted in one of 24 battery containers on site.

Update: Evacuation orders were lifted Saturday after the battery fire was out. "Over the coming weeks, the Escondido Fire Department and SDG& E will conduct a thorough investigation to determine ...
