

Will Japan build a duty-free solar cell factory in Ethiopia?

Sign up here. Our Standards: The Thomson Reuters Trust Principles. Japan's TOYO Co. Ltd on Monday said it will build a 2 gigawatt solar cell factory in Ethiopia that will provide duty-free components to a panel factory it is planning in the United States.

Where is Toyo launching a solar cell plant in Ethiopia?

The proposed solar cell manufacturing plant will be developed on a 31,500m<sup>2</sup> facility in Hawassa, for which TOYO has already executed a lease agreement. The project location is a strategic choice influenced by Ethiopia's favourable investment policies, tariff exemptions and hydropower resources.

Why did Ethiopia choose a solar project?

The project location is a strategic choice influenced by Ethiopia's favourable investment policies, tariff exemptions and hydropower resources. The chosen site will undergo modifications to accommodate a modern, automated solar cell production line.

Does Ethiopia have a tariff exemption for bifacial solar cells?

Ethiopia has been granted a tariff exemption for bifacial solar cells under Section 201 of the US Trade Act 1974. TOYO CEO Junsei Ryu stated: "Establishing this manufacturing plant is a key step in our strategic vision to diversify our supply chain and enhance our sourcing capabilities for solar solutions in the global market.

How many jobs will Toyo create in Ethiopia?

TOYO anticipates the creation of up to 880 jobs, encompassing roles in manufacturing and engineering. Ethiopia has been granted a tariff exemption for bifacial solar cells under Section 201 of the US Trade Act 1974.

Where does Ethiopia's electricity come from?

Approximately 90% of Ethiopia's electricity generation comes from hydropower, with wind contributing 8% and thermal sources accounting for the remaining 2%.

Established in 2006, Macro-Solar has been offering reliable renewable products which are internationally certified with TUV, CE, IEC, ISO and RoHS, etc. Currently, our annual production capacity is 10MW. Our solar modules have been delivering strong operating performance, providing clean & reliable solar electric power to on-grid and off-grid ...

Our cutting-edge Solar Panels are designed to replace traditional generators, providing a reliable and clean energy solution for a wide range of applications. ... In Addis Ababa, Ethiopia (latitude: 9.026, longitude: 38.7439), solar energy generation is quite favorable throughout the year due to its tropical climate and consistent sunlight exposure. The average daily energy production per kW of installed solar capacity varies by season, with Spring yielding the highest output at 7.22 kWh/day and Summer producing the lowest at 5.42 kWh/day.

Pentru ca orice lucru sa fie o investitie si nu o cheltuiala, acesta trebuie sa fie bine facut de la &#238;nceput. &#206;n cazul nostru, experienta, rabdarea si certificarile necesare aduc valoarea necesara pentru un proiect reusit, durabil si economic.
