The Falkland Islands Fire & Rescue Service were gifted with new equipment intended to help prevent the spread of Camp fires. The UK Government has given the equipment as part of the Darwin Plus Scheme in an effort to reduce possible impacts on local biodiversity, posed by climate change.

Many services will have been involved in these incidents alongside fire and rescue and their roles are greatly appreciated. This article mostly focuses on the fire department's role in these incidents as a matter of recording some of the fire department's history.

Shop the Eagle 1901X Safety Cabinet at Ubuy Falkland Islands. Constructed of 18-gauge steel with a high gloss powder coat finish, this 2-gallon flammable liquid cabinet meets NFPA Code 30 and OSHA requirements.

The Falkland Islands government Chief Executive, Andy Keeling in an open statement has thanked all those involved in the response to the Sea Lion Island fire since Friday 8 March.

After several months of video conferences that shrunk the globe and taught us about the challenges faced across the Falkland Islands government environment and its agricultural and fire departments, a deployment programme was agreed upon and funded by Defra.
