KSTAR has announced the launch of an all-in-one outdoor cabinet energy storage solution, designed for small to medium size commercial and industrial energy storage and microgrid applications. Integrated with a CATL LFP battery solution, the KAC50DP/BC100DE provides safe energy storage and management of power generation output.

o Leverage our energy transition to promote healthier and environmentally friendly transport; o Value our people and promote skills to support the energy transition; and o Update governance processes to support our energy transition.
