

Commercial. The efficient commercial battery energy storage system. Key Facts: . Power: up to 92 kW. . Capacity: 84 up to 210 kWh . Benefits: . Self-consumption optimization 2.0 . withtimized AI-op time-of-use tariffs* . Peak Shaving : avoiding high power prices and grid expansion* . PV-optimized integration of electric vehicle

FENECON Commercial 92 is a fully modular electricity storage system - the basis for a sustainable, eco-friendly energy system. The scalable power storage solution grows with your ...

Assembly of the FENECON Commercial 92, installation of battery modules and cable connections, as well as expansion of the system must only be carried out by qualified electricians. During maintenance work, stand on dry insulating objects and do not wear any metal objects/jewelry (e.g. watches, rings and necklaces) during maintenance work/operation.

users can adapt their FENECON energy storage system according to their individual needs. the advantages of FEMS on your energy journey even more efficiently with FENECON Use y download apps and install them via license keySimpl

Assembly of the FENECON Commercial 92, installation of battery modules and cable connections, as well as expansion of the system must only be carried out by qualified electricians. During maintenance work, stand on dry insulating ...

If you want to drive the Energy Journey with FENECON, rely on one of our Country Partners: BENNEX, Sellpower, ELINTA and NOE Energy Solutions, with experienced contact persons, provide all necessary information on our battery ...

Energy prices are skyrocketing. Now is the time for solar self sufficiency. For commercial use there are some more opportunities by bigger storage systems for solar energy. They buffer the consumption and diminish ...

Energy prices are skyrocketing. Now is the time for solar self sufficiency. For commercial use there are some more opportunities by bigger storage systems for solar energy. They buffer the consumption and diminish the costs for grid connection, as Franz-Josef Feilmeier explains. He is founder and CEO of Fenecon.

FENECON Commercial 92 is a fully modular electricity storage system

storage system - the basis for a sustainable, eco-friendly, alternative energy system. The scalable power storage solution grows with your energy needs.

Der neue FENECON Commercial bietet 84 bis 210 kWh nutzbare Kapazität und bis zu 92 kW Leistung. Praktisch sind die besonders einfache Installation und die Konzeption als All-In-One System: Es umfasst eine kompakte Hochvoltbatterie, einen effizienten Batteriewechselrichter (KACO blueplanet gridsave 92.0 TL3-S) sowie das smarte Energiemanagement ...

At FENECON, we pursue the clear vision of the 100% energy transition. We design our battery energy storage and energy management solutions to be sustainable so that a complete supply of renewable energy for electricity, heat and mobility is possible.

If you want to drive the Energy Journey with FENECON, rely on one of our Country Partners: BENNEX, Sellpower, ELINTA and NOE Energy Solutions, with experienced contact persons, provide all necessary information on our battery energy storage systems with the intelligent energy management ...
