

Who is Constantine energy storage?

Constantine Energy Storage Who are we? Constantine Energy Storage was founded in 2021 by Constantine Group to manage the construction and ownership of a portfolio of battery energy storage systems. The initial portfolio of over 1GWh of storage began construction in 2022.

What is Constantine Group?

Constantine Group is a company with a long track record of developing and managing renewable energy platforms. Investment Director at Constantine, Graham Peck, stated: 'During this time we have seen increasing deployment of renewable energy projects creating a large market opportunity and inherent infrastructure demand for energy storage.'

Who is Louis from Constantine energy storage?

Louis joined Constantine Energy Storage in 2021 and is responsible for the construction and operation of the portfolio. He has over 15 years' experience in the energy industry and prior to Constantine Energy Storage worked for Centrica, REstore and British Gas.

Who is Mike from Constantine energy storage?

Mike joined Constantine Energy Storage in 2021 and is responsible for the commercial performance of the portfolio. He has more than 15 years' experience in the energy industry and, prior to Constantine Energy Storage, worked for Habitat Energy, Anesco and National Grid ESO and holds a degree in Electromechanical Engineering.

Who is Phil from Constantine energy storage?

Phil joined Constantine Energy Storage in 2022 and is responsible for project construction. Phil has over 11 years' experience in the energy industry and prior to Constantine Energy Storage worked for National Grid. Phil holds a degree in Electrical and Electronic Engineering.

Will a new mine in Finland use gravity?

It will use gravity to retain excess power for when it is needed. The remote Finnish community of Pyhäjoki is 450 kilometres north of Helsinki. Its more than 1,400-metre-deep zinc and copper Pyhäsalmi mine was decommissioned but is now being given a new lease of life by Scotland-based company Gravitricity.

Sungrow Power Supply Co will supply Constantine Energy Storage (CES) with its liquid-cooled grid-scale BESS (battery energy storage system) solution "Power Titan". The units will go towards an 825MWh pipeline

...

As the country's energy system decarbonises, energy storage is needed to help balance the system and supply

key services to ensure safe and reliable supply. Through our unique combination of scale, location, and deliverability, our portfolio is at the forefront of enabling the energy transition.

A study published by a team of international researchers last month found that gravity batteries in decommissioned mines could offer a cost-effective, long-term solution for storing energy as the...

Energy storage is simply the ability to capture energy for use later. As we transition the world from a power system using fossil fuels, where energy is stored within the fuels themselves, to one using renewables, the requirement for ...

Constantine Energy Storage was founded in 2021 by Constantine Group to manage the construction and ownership of a portfolio of battery energy storage systems. The initial portfolio of over 1GWh of storage began construction in ...

Constantine Energy Storage was founded in 2021 by Constantine Group to manage the construction and ownership of a portfolio of battery energy storage systems. The initial portfolio of over 1GWh of storage began construction in 2022.

LONDON, March 13, 2023 /PRNewswire/ -- Sungrow Power Supply Co., Ltd., the world's most bankable inverter brand, today announced a mega deal to supply Constantine Energy Storage (CES), a grid...

Constantine Energy Storage (CES) was founded in 2022 as a platform to construct, own and operate best in class institutional grade battery energy storage systems (BESS). As the country's energy system decarbonises, BESS is ...

Established in 2018, Pelagic Energy is a renewable energy development company specialising in the development of Utility-Scale Battery Storage, Flexible Generation, and Solar Farms. The UK's Net Zero target involves a transition ...

Constantine Energy Storage (CES) was founded in 2022 as a platform to construct, own and operate best in class institutional grade battery energy storage systems (BESS). As the country's energy system decarbonises, BESS is needed to help balance the system and supply key services to ensure safe and reliable energy supply across the grid network.

Alberta Investment Management Corporation (AIMCo) and investment manager Railpen have jointly acquired a 94% stake in UK battery storage company, Constantine Energy Storage (CES). CES develops grid-scale batteries, and is planning to invest more than £400 million to build out a pipeline of projects in the UK.

Sungrow Power Supply Co will supply Constantine Energy Storage (CES) with its liquid-cooled grid-scale BESS (battery energy storage system) solution "Power Titan". The units will go towards an 825MWh pipeline that CES is developing spread across five sites with scheduled commercial operation dates in 2024, through its

subsidiary Pelagic ...
