

Does French Polynesia rely on hydrocarbons?

French Polynesia, like most island territories, is highly dependent on hydrocarbon imports. In 2019, 93.8% of energy consumed in the archipelagos came from imports of various petroleum-based fuels. The renewable energy penetration rate in power generation stood at 28.78% in 2019. This figure has remained stable over the last five years.

How many gas stations are there in French Polynesia?

Until 2006, our strategy focused essentially on the development and consolidation of our position in French Polynesia, in Tahiti, but also in the outer islands. Leader on the market, our network has 14 gas stations today, in 4 islands (Tahiti, Moorea, Raiatea and Rangiroa).

What is French Polynesia's energy transition plan?

French Polynesia's energy transition plan has three main objectives: Change the energy model, by gradually replacing the use of fossil fuels with renewable energies in all activities

Which countries did Pacific Energy acquire BP?

Winning another international tender process, Pacific Energy continues its expansion with the acquisition of the assets of the BP group in 7 new countries; Fiji, American Samoa, Tonga, Tuvalu, Cook, Kiribati and Vanuatu. June 2010: Consolidation

Who are Pacific lubricants?

We are an independent regional group supplying petroleum products and lubricants to the Pacific Islands. We provide a full range of services to our customers, including supply, storage and distribution. We guarantee the strict implementation of international industrial standards for the safety and tracking of our operations.

As of 2022, the electricity consumption in French Polynesia predominantly relies on fossil fuels, accounting for over two-thirds or approximately 67% of the total electricity generation. The remaining portion, nearly a third, comes from low-carbon or clean sources. Specifically, around 26% of the electricity is generated from hydropower, while about 7% comes from solar energy.

French Polynesia: Many of us want an overview of how much energy our country consumes, where it comes from, and if we're making progress on decarbonizing our energy mix. This page provides the data for your chosen country across all of the key metrics on this topic.
