

For its energy division, Kutame Industries will operate a Solar PV Panel manufacturing plant. This facility is to be situated at the Richards Bay Industrial Development Zone and will build a product branded "Duvha Solar", which will rival some of the major solar panels available on the South African market today.

Situated in South Africa, the city of Polokwane offers an advantageous location for solar energy generation. The average daily yield per kilowatt of installed solar capacity fluctuates with each season, peaking at 6.28 kWh/day in the summer and dipping to a low of 4.82 kWh/day during winter months due to shorter daylight hours and reduced ...

The main aim of the proposed PV Plant at Eskom's Duvha Power Station is to enable Eskom to diversify their energy mix and reduce their relative carbon footprint. Given South Africa's reliance on Eskom as a power utility, and on Eskom non-renewable energy sources, the benefits associated with Eskom

We supply, install, repair and maintain Residential, commercial and industrial Solar systems. How do you ensure that your solar system installations comply with electrical installation regulations? We have a team of qualified electricians who are capable of issuing Electrical certificate of compliance for all electrical installations that we work ...
