Freshtec Energy specialises in the wholesale and retail of Solar Products: Solar Panels ,Batteries,Inverters and Accessories.We are based in Johannesburg South Africa and we sell and export our products to the SADC region. Freshtec Energy reviews,customer feedback &support.

Is freshtec a good company?

Best solar supply. We have been working with freshtec for a long time. It has been a very good experience with them. Good business indeed and well taking care of their clients. Do not buy solar from Freshtec Energy. No aftersales assistance. Do not use the "technicians" they claim you can contact for any form of installation.

Is freshtec energy a scam?

Freshtec Energy Not a scam,just good business sence! I am in Cape Town and had some worries that the good prices and service was a scam,... Everything,but! Prices were at least 15% cheaper and one of the pieces was 30% cheaper than anywhere. I spoke to a gentleman called Patric and he was friendly,helpful and very prompt with his service.
