

The recommended best practice is to copy backup tapes and then send the copy off-site. The advised method of copying backup tapes is to write a new tape by reading the original tape. This method has the benefit of both verifying that the backup data is readable as well as eliminating the single point of failure of the backup tape.

Existují dva základní typy rozvadeců: klasický rozvaděč s manuálním back-upem a full back-up rozvaděč. V praxi manuální systém musí být fyzicky přikládán k rozvaděci a přednastaven.
