

What is GCL photoelectric materials?

GCL Photoelectric Materials, a subsidiary of GCL Group specializing in the research and production of perovskite solar cells and panels, has announced that its 1 m x 2 m perovskite single-junction module has achieved a power conversion efficiency of 18.04%. The group said that the China National Institute of Metrology has certified the result.

What does GCL do?

GCL targets at making PV-generated electricity affordable and inclusive for the public by its constant technology innovations in polysilicon, silicon wafers, cells, modules, system integration and photovoltaic power plants, continuous improvement of its management, regional layout and green energy certification systems.

Who is GCL system integration technology?

GCL System Integration Technology strives to be the world's leading integrator of comprehensive energy systems.

What is GCL energy storage?

GCL provides photovoltaic energy storage products, covering energy storage products used in residential, C&I, utility and other industries.

Who is GCL Technology Holdings Limited?

GCL Technology Holdings Limited is a global pioneer in the research, development and manufacturing of high-efficiency photovoltaic materials.

What makes GCL unique?

GCL has formed by far the most integrated PV industry chains with the most intellectual property rights in the world.
