

What is ganfeng lienergy?

Ganfeng LiEnergy is a subsidiary of Ganfeng Lithium, an A+H share listed. Our products include solid state batteries, consumer batteries, small polymer batteries, power batteries, and energy storage systems, covering more than 20 specific types under these 5 categories. The battery capacities range from mAh level to hundreds Ah level.

What is the battery capacity of ganfeng lienergy?

The battery capacities range from mAh level to hundreds Ah level. Ganfeng LiEnergy has first-class R&D teams and advanced product R & D line, and its products have entered the supply chain of many well-known brands.

Is ganfeng planning a new battery plant in Chongqing?

Ganfeng is now continuing this strategy. Media such as the South China Morning Post and Yicai Global report that the larger of the two newly planned plants with an annual capacity of 24 GWh is to be built in the city of Chongqing. There, Ganfeng plans to manufacture LFP and NMC cells as well as battery packs, they say.

Will ganfeng make solid-state batteries?

There, Ganfeng plans to manufacture LFP and NMC cells as well as battery packs, they say. According to the portal Autonews Gasgoo, solid-state cells will also be produced there. The production of solid-state batteries would not come as a surprise, to say the least.

Will ganfeng produce LFP & semi-solid cells?

According to media reports, the company wants to produce LFP and semi-solid cells there, among other things. However, Ganfeng will not build both factories on its own. Instead, the subsidiary Ganfeng LiEnergy, in which Ganfeng Lithium holds 65.5 percent, will be entrusted with the construction.

The Chinese lithium and battery producer Ganfeng Lithium is investing 15 billion yuan in two new battery factories to increase its production capacities by 34 GWh to around 100 GWh per year. Converted, the ...
