P. O. Box 222-5000, Liberia, Guanacaste, Costa Rica PMoya@ice.go.cr, emilia.liberia@gmail Keywords: Carbon dioxide, burning fuels, deforestation, green energy, Miravalles geothermal field, Guanacaste, Costa Rica. ABSTRACT Geothermal energy production in Costa Rica began in early 1994 with the first unit (Unit 1 - 55 MW) located at the

Costa Rica has been investing in renewable energy for 70 years, so its electricity matrix is very strong in renewables. Hydropower is the main source of our electricity, followed by wind, geothermal, solar and biomass. With that mix, more than 99 percent of the country's electricity can be reliably generated from renewables.
