Embrace the future of energy with the 5KW DEYE 5.3KWH Solar Combo and take control of your energy destiny. Say goodbye to rising electricity costs and reliance on fossil fuels--embrace the clean, renewable power of the sun and unlock significant savings while reducing your environmental impact.

A generator, or genset, is an electrical device that converts mechanical energy into electrical energy. In Zambia, where access to reliable power is essential for both homes and businesses, generators have become a crucial backup solution for when the power grid fails or for those who live in rural areas.

Priced between KW55,000 and KW80,000, this solar generator comes with a 20Wp solar panel and a built-in 12AH lead-acid battery. It has a charging time of 12 to 14 hours and provides lighting for up to 6 hours with 4 LED bulbs.

Newest project from a customer in Zambia, a 5kW off grid system. - 20 pcs of 250W poly solar panel - 5kW MPPT solar charge controller and inverter - 8 pcs of 12V/200Ah gel battery - Tin roof mounting brackets
