At SOLAR DEVELOPMENT, the customers' requirements are always considered ... The Davis & Shirliff Group is the leading supplier of water related equipment in the East African region.

Does Ethiopia have a solar energy system?

On the other hand, Ethiopia is largely endowed with sunshine. Solar energy systems fit for household use are already partly available in the country. However, they are imported goods of inferior quality that often break down after a few months and thus threaten people's trust in solar energy systems.

How can solar energy help Ethiopia?

It can also be used to generate hot water for cooking, bathing and agricultural purposes. Solar energy can help Ethiopia reduce its dependence on expensive and unreliable diesel generators, and provide reliable and affordable electricity in rural areas where traditional grid-based electricity is often unavailable.

Why do Ethiopians use a light switch?

Many families in Ethiopia are happy when they can come home in the evening and operate a light switch. They also have the opportunity to recharge their mobile phones, because for many Ethiopians these are an elementary tool on which they depend for example for mobile banking.
