

Who is SMA Solar Technology?

Flexible solutions for all projects ensuring faster time to market. Discover SMA Solar Technology, a global specialist for solar inverters and PV technology with solutions for home owners, business owners and large scale PV plants.

Does Germany have a solar mandate?

Solar Package I, approved in August 2023, aims to accelerate PV installation and enhance citizen participation, albeit, it is still under negotiation within the Parliament. While a solar mandate was considered, it was omitted in the final strategy. Yet, some German states have implemented their own mandates.

Who is the CEO of SMA Solar Technology AG?

Jürgen Reinert is now chief executive officer of SMA Solar Technology AG and is responsible for strategy, sales and service in addition to operations and technology. Barbara Gregor is responsible for the SMA board functions of Finance, Legal and Capital Market Communications.

Who are the board members of SMA Solar Technology AG?

As of January 1, 2017, the managing board of SMA Solar Technology AG comprises the following members: Ulrich Hadding (board member for finance, human resources and legal), Jürgen Reinert (deputy CEO, board member for technology and operations), Pierre-Pascal Urbon (CEO, board member for strategy, sales and service).

Why should you choose SMA for your solar project?

Ensure energy security and, therefore, consistent performance for your business. SMA provides valuable resources for PV installers and project planners, providing support and fostering partnerships for successful solar projects. Collaborate with SMA to elevate your solar projects. Gain access to cutting-edge technology and support services.

Does Germany have a legal framework for energy sharing?

In Germany, even though the governmental coalition agreement in 2022 established the clear purpose to provide a legal framework favourable for energy sharing, so far no concrete measures have been adopted to date and still relies only on local self-consumption approaches without energy sharing or connection to the grid.

Intersolar AWARD for the Sunny Boy Smart Energy inverter with integrated storage. Smart Energy Award 2013, "Energy Information Communications Technology" category, for the SMA Smart Home comprehensive energy management solution. Great Place to Work®; TOP 5 Best Workplaces in Germany, "Companies with more than 5,000 employees" category

Smart Power GmbH and SMA Solar Technology AG (ETR: S92) are partnering on the construction of a 60-MW/67MWh battery storage space system in Eisenach, central Germany, to progress the assimilation of ...

SMA Solar Technology AG (meaning System, Mess and Anlagentechnik) is a German solar energy equipment supplier founded in 1981 and headquartered in Niestetal, Northern Hesse, Germany. SMA is a producer and manufacturer of solar inverters for photovoltaics systems with grid connection, off-grid power supply and backup operations.

Smart Solar Market size was valued at USD 17.65 Bn in 2023, registering a CAGR of 15.3% during the forecast period (2023-2030), and the market is projected to be worth USD 55.13 Bn by 2030.
