

Which power supplies are made by Harbin coslight?

The DC power supplies, produced by Harbin Coslight Power Co., Ltd., include 220V DC high-frequency switching power supply systems, 48V and 24V high-frequency switching DC power supply systems for telecommunication, charge and intellectual protection and control systems for electric bicycle-based lithium iron phosphate batteries,.

Who is Harbin coslight power?

Harbin Coslight Power Co., Ltd. was founded in 1998 with a registered capital of RMB 231,023,000. Up to the end of 2007, its total asset has reached RMB 960,000,000. Presently, it covers a land area of over 170,000 sq.m and the construction area is more than 100,000 sq.m.

How many subsidiaries does Harbin coslight have?

As one of the "Top 100 Electronic Enterprises in China", the Group now has 21 subsidiaries such as Harbin Coslight Storage Battery Co., Ltd. and Harbin Coslight Power Co., Ltd., 13 overseas subsidiaries or offices in Russia, Germany, Britain, Italy, Turkey, the United States, Canada, etc., and a postdoctoral workstation and an institute.

Does coslight Li-ion battery work for HEV buses?

Coslight has provided 40 Ah/345V matching battery system for HEV buses of A Bus Manufactory. The effect of energy saving and emission reduction is especially remarkable. The bus matched with Coslight li-ion battery can stably save 30% oil of traditional diesel bus for long term, and A Bus Manufactory has signed commercial order with us.

Will coslight provide a matching battery system?

According to the agreement, Coslight will provide matching battery systems for the existing types of vehicles and new types of vehicles of F Vehicle Co., Ltd., both parties will cooperate at the aspect EV car development and technology communication, electric car industrialization, special electric vehicle industrialization and so on.

Who is coslight Technology International Group?

Coslight Technology International Group Co., Ltd. was established in 1994, and listed at Hong Kong United Stock Exchange in 1999.

In the splendid city, Harbin, the company founded Coslight users training center with the first class teaching and living facilities. Each day, the center has to receive the Coslight users from ...

In March, 2009, Coslight has invested to build Vehicle battery Industry Park. The industry park is located in Harbin Development Zone, which land area is 110, 000 m² and building area is 67,000 m². The company is actively searching lithium mineral resources and currently owns lithium mine in Henan Province..

As one of the "Top 100 Electronic Enterprises in China", the Group now has 21 subsidiaries such as Harbin Coslight Storage Battery Co., Ltd. and Harbin Coslight Power Co., Ltd., 13 overseas subsidiaries or offices in Russia, Germany, Britain, Italy, Turkey, the United States, Canada, etc., and a postdoctoral workstation and an institute ...

Harbin Coslight Power Co., Ltd., the key subsidiary of the Coslight Technology International Group Co., Ltd., which leading product is lithium-ion batteries .The production capacity per year is that liquid batteries may reach 80 million pieces, polymer li-ion battery may reach 30 million pieces, and the iron-lithium batteries may reach 0.4 million KVAh.

Harbin Coslight New Energy Co., Ltd. (Cospowers for short) is a national high-tech enterprise focusing on the development of the lithium battery energy storage industry. The technical team has more than 20 years of experience in the lithium battery industry, and has R& D and manufacturing capabilities from lithium-ion material development, cell production, energy ...

My client has bought 8 Harbin Coslight GYFP48100T batteries on what looks like an auction. I need to connect them in parallel, however I am not sure about the communication between the batteries. Someone did install these prior, but without any comms between the batteries. ... Please feel free to contact: Power(AT)powerforum .

The CL2000 Power Automation Systems, produced by Harbin Coslight Electric Automation Co., Ltd., include substation automation systems, integrated automation systems for electrical power plants, and computer monitoring systems for hydropower stations.

The good service is an important competitive advantage for Coslight power. 1)Service Quality and Attitude--Best and Speedy ... In the splendid city, Harbin, the company founded Coslight users training center with the first class teaching and living facilities. Each day, the center has to receive the Coslight users from across the country. Up ...

CosLight - SHPS type solar energy, oil, electric hybrid power supply system in DHPS oil electricity hybrid power system based on 4.5kw solar power supply unit, for the sunny and no electricity or power outage frequency region of the base station power supply, both economic and reliable and safe environmental protection, is the best base station ...

In the splendid city, Harbin, the company founded Coslight users training center with the first class teaching and living facilities. Each day, the center has to receive the Coslight users from across the country.

ZJK-1 is a high-performance monitoring device developed and produced by Harbin Coslight Power Co., Ltd. in 2005. The device adopts Flash ROM) and MCU that meets the requirement of modern industrial control, with the main ...

The production base of Coslight lithium batteries for vehicles is located in Harbin, occupying 110,000 m², and the building area is 67,000 m². The first stage construction will be completed in 2010, the yearly production capacity of lithium batteries may reach 400,000 KVAh.

Harbin Coslight power plant was established. 1988. China's first valve-controlled sealed lead-acid battery manufacturing enterprise. Cospowers Technology Co., Ltd. Address: No.28, Dongqi Road, Dongying City, Shandong Province, P.R.C. TEL: 0546-7768891. E-mail: dysales@cospowers .

Excellent power features: Coslight iron phosphate lithium battery can be fully recharged by utilizing special recharger under 0.2C for 5-7h. And the maximum discharge current can reach 4C. In case of special requirements, the discharge current can reach 30C and recharging current can be increased to 3C.
