

How long will Eco Wave Power last in Gibraltar?

According to the agreement between Eco Wave Power and the Government of Gibraltar, the pilot was built and originally supposed to operate only for two years, with the purpose of proving that wave energy can safely connect to the grid and withstand the Gibraltar storms, using its storm-protection mechanism.

Who is the Gibraltar Electricity Authority?

Only with a consistent focus on running our business responsibly and sustainably can we help secure our future and create added value for all. The Gibraltar Electricity Authority is a H.M. Government of Gibraltar Authority and currently, the only Electricity Utility Provider in Gibraltar.

Why does Gibraltar need a LNG power system?

The people and businesses of Gibraltar will have better air quality, a quieter environment, and see the rewards of better energy efficiency. Michael Caetano, Chief Operational Officer of the Gibraltar Electricity Authority (GEA) When Gibraltar upgraded its nearly 40-year-old power system, they opted for a unique LNG solution.

Could energy storage batteries prevent future power cuts in Gibraltar?

PLANS to set up energy storage batteries at the North Mole Power Station could prevent future power cuts in Gibraltar. The ten new prefabricated

Does Gibraltar have electricity?

Until recently, Gibraltar's electricity supply was dependent on some 40 diesel-powered engines and turbines distributed across Gibraltar. In 2019 a new, modern power station situated at the North Mole commenced operation running long term on liquid natural gas (LNG).

Why does Gibraltar need a new power plant?

This secures Gibraltar's energy supply economically, environmentally and sustainably. The associated closure of the three old plants represents the largest measure taken to improve air quality and reduce greenhouse gas emissions. The new power plant consists of six engines; 3 of which run on natural gas and 3 of which are dual fuel.
