

The overseas territories largely import energy that is still highly carbon-intensive (coal, fuel oil). Particularly affected by climate change, the French Overseas Territories must reconcile the inseparable and complementary objectives of energy "transition" and "autonomy".

Solutions 30 is deploying its energy business alongside EDF in the French overseas territories. The group has won a 4-year contract to carry out technical work to retrofit ...

This transaction completes the evolution of the Penso Power business to become part of a global energy storage platform. Working as one team, we'll leverage our combined skillsets and experience to capitalise on new and emerging opportunities across global energy storage."

The overseas territories largely import energy that is still highly carbon-intensive (coal, fuel oil). Particularly affected by climate change, the French Overseas Territories must ...

Battery storage developer Harmony Energy is set to deliver France's largest battery energy storage system (BESS) -- the Chevir's battery project -- using Tesla Megapack technology. The project will mark a significant milestone for the French energy system, being France's first large-scale two hour battery.

Solutions 30 is deploying its energy business alongside EDF in the French overseas territories. The group has won a 4-year contract to carry out technical work to retrofit EDF connections in...
