

Who is the greencells group?

The Greencells Group develops, finances and constructs solar power plants worldwide. The Greencells Group is a company specializing in the development, financing and construction of solar power plants worldwide. Headquartered in Saarbrücken, Germany, it is one of the largest solar groups in Europe.

What does greencells do?

The Greencells Group is active in more than 25 countries and now employs more than 300 people. The 151 solar plants installed generate a total output of 2.4 gigawatts. To be able to guarantee the basic power supply with renewables, the company builds so-called hybrid power plants that combine solar energy with wind turbines and storage systems.

Who owns greencells Group Holdings?

To keep up with the strong market growth, Hoffmann and Kisauer founded Greencells Group Holdings, based in Abu Dhabi, with investor group Zahid in 2018. Greencells plans, finances and builds solar parks all over the world.

Who is greencells GmbH?

He found what he was looking for at Conergy, one of the largest solar companies in Germany at this time, where the event employees were started to deploy on a solar construction site. That was the beginning of the company Greencells GmbH, which he founded together with Marius Kisauer in 2009. Initially, Greencells only installed solar modules.

Why did greencells survive?

In 2012, there was a crash and consolidation of the German solar market, which Greencells survived and grew against the market trend. The reason for this was the expansion of its business areas. For example, Greencells entered project development and focused on building large-scale solar plants abroad.
