The 7039 is a permanently connected standby generator with automatic transfer switch that operates your home's existing natural gas (18kW) or LP Gas (20kW) supply. It monitors utility power 24/7, then starts and runs automatically upon detecting a power outage and continues to run until the utility restores power.

The result is the cleanest, most stable power available in an RV generator and safe for the most sensitive electronics with just 3% Total Harmonic Distortion. The 2800 watt Flex Power 2800i RV Generator has a completely new exhaust and cooling system design that keeps the generator quiet while providing maximum cooling.
