

Greentown rooftop photovoltaic panel price

How much does a rooftop solar system cost?

Mounting system: This is what holds rooftop solar panels in place. Costs vary depending on the type of solar installation, but it generally costs between 7 and 20 cents per watt. Electrical wiring and hardware: This includes the wiring, switches and circuit breakers required to connect the solar panel system to your home's electrical system.

What is a good price per watt for rooftop solar?

A good price per watt for rooftop solar provides a balance of savings potential and robust warranty and service coverage. Based on recent solar pricing trends from the SEIA, this balance can be found in the \$3-4 per watt range for residential solar projects.

Is rooftop solar a good investment?

At its core, rooftop solar is a way to pre-purchase 25 years of electricity in order to hedge against ever-rising utility rates - quite similar to buying bulk coffee grounds instead of individual Venti Lattes from Starbucks. The return on this long-term investment depends on a handful of key factors, including the price of the solar system itself.
