

The new all-solid-state EV battery was developed with Mercedes to power its next-gen models. Factorial said its sulfide-based system addresses concerns over flammable liquid electrolyte designs.

4 ???&#0183; Factorial's first A-sample 40Ah Solstice(TM) cells showcase significant technical achievement in scaling up all-solid-state battery technology The cells are manufactured utilizing a novel dry ...

Stellantis is incorporating Factorial's solid-state batteries into a demonstration fleet of all-new Dodge Charger Daytona vehicles based on the STLA Large platform. These EVs will be on the road by 2026, representing a key next step in bringing solid ...

2 ???&#0183; Factorial Energy, a company working on all-solid-state batteries for electric vehicles (EVs), has scaled its initial Solstice battery cells to a capacity of 40Ah, which signifies a vital step ...

3 ???&#0183; With a breakthrough energy density of up to 450 Wh/kg, Factorial claims the new battery tech can boost EV range by up to 80%. Top comment by TheMorningLine Liked by 16 ...

1 ??&#0183; Factorial Energy is a US specialist for solid-state battery cells supported by Mercedes-Benz, Stellantis, and Hyundai-Kia.The company is pursuing several lines of development. In June, Factorial delivered B samples of its solid-state cells with a charging capacity of more than 106 Ah to Mercedes-Benz. These are said to have an energy density of 391 Wh/kg, although the ...

3 ???&#0183; WOBURN, Mass., December 12, 2024--Factorial unveils 40Ah all-solid-state Solstice(TM) battery cells, using a novel dry cathode coating for higher energy density and scalability.

3 ???&#0183; With a breakthrough energy density of up to 450 Wh/kg, Factorial claims the new battery tech can boost EV range by up to 80%. Top comment by TheMorningLine Liked by 16 people

Factorial's quasi-solid-state manufacturing process was developed to use much of the raw material supply chain already procured for today's lithium batteries. It also uses similar manufacturing equipment.

Our investment in Factorial and other highly recognized battery partners boosts the speed and agility needed to provide cutting-edge technology for our electric vehicle portfolio. Initiatives like these will yield a faster time to market.
