

How much money did Equis Energy make?

When renewables private equity group Equis Energy was sold to GIP for \$5 billion - \$3.7 billion of it equity - investors walked away with well over double their initial investment. The founders of Equis made around \$800 million.

Is Equis Energy a good investment for GIP?

Adebayo Ogunesi, Chairman and Managing Partner of Global Infrastructure Partners said, "We are excited by the new investment in Equis Energy, which is a strong fit with GIP's global renewable investment strategy.

Did GIP buy EQUIS for \$5 billion?

Several months earlier a consortium led by Global Infrastructure Partners (GIP), with partners including the China Investment Corporation sovereign wealth fund, had agreed to buy the renewable energy asset portfolio of Equis, a Singapore-headquartered independent infrastructure asset manager, for \$5 billion.

Did the sale of Equis Energy make a difference?

Many had more than doubled their money. "The sale of Equis Energy [the name of the sold renewable energy portfolio] resulted in record-breaking returns and cash distributions for numerous Equis investors," says Lance Comes, partner and co-founder. For some, it was their best-ever realized portfolio performance.

How much money did EQUIS renewables receive from Indian investors?

But Equis Renewables - the partners - is thought to have received at least \$50 million for the Indian part of its portfolio. If any of the initial funding of that portfolio of 13 assets had been borne by the Equis funds, shouldn't the investors have shared in that?

How much money did the founders of Equis make?

The founders of Equis made around \$800 million. But why was more than \$500 million of the proceeds ringfenced into a vehicle called Equis Renewables, in which the underlying investors did not participate, while the general partners got it all?
