The lack of winds stalled the British fleet from continuing past the White House battery and both sides bombarded each other over the next few days with little effect. With the winds changed, the British conducted a final bombardment that silenced the American battery before sailing on to Chesapeake Bay on September 6.

While you can always schedule service with our technicians at Atkins Kroll Guam, sometimes Hagatna and Dededo drivers need to remove their batteries during an inspection at home. But, learning how to remove a car battery safely requires a little bit of research. That's because car batteries contain corrosive chemicals and electric charges that can harm you if you're not careful.
