

HRESYS GT series is Top terminal VRLA AGM battery for General use. With advanced manufacturing technique and industry scale, GT series delivers high energy density and high reliability performance, highly suited for UPS systems, security and alarm systems, telecommunication, utilities, emergency light systems, CATV and other backup applications.

China supplier of Lead Acid Battery. Zhejiang Hengrui Technology Co., Ltd. (HRESYS) is engaged in the Battery Industry and IOT (Internet of Things) + Smart Energy Solutions market in both domestic and overseas.

As we continue to expand our reach, exporting our superior lithium-ion battery technology worldwide, HRESYS remains dedicated to innovation, reliability, and intelligent energy solutions for a sustainable future.

The HRESYS GT Series represents the pinnacle of VRLA AGM battery technology, designed specifically for general use. This remarkable battery series boasts an innovative integration with kw inverter with lithium battery systems, providing ...

This battery operates through a chemical reaction between lead and sulfuric acid, which enables it to produce and store electrical energy. The lead-acid battery comprises a lead peroxide (PbO₂) plate and a sponge lead (Pb) plate, both submerged in a solution of dilute sulfuric acid (H₂SO₄).
