Solar energy offers a sustainable, renewable, and abundant power source for the island of Guam. Solar power is mainstream, and with a Federal Tax Credit of 30%, the time is now to invest in a solar system that will lower your power ...

Excess power gathered by solar panels can be sent back to the utility company to be renewed and used to power other utilities, so no power is wasted. As homeowners, you'd be happy to know that solar panels are not only pollutant free, but they don't make any noise as well! Solar panels gather and produce energy silently on the roofs of your homes.

The 120,000 solar panel project, called Dandan, has been in operation since October 2015 and serves its generation to Guam Power Authority. The project, large enough to power roughly 10,000 homes, avoids the emission of nearly 40,000 tons of carbon annually into the atmosphere.
