

How many solar panels are there in Guernsey?

A solar panel project at a Guernsey charity is now complete and will power about 40 homes, Guernsey Electricity said. There are 310 photovoltaic panels on the roof of the newly reopened Guernsey Rural Occupational Workshop (Grow) site. The charity worked with Guernsey Electricity and The Little Green Energy Company on the scheme.

What is the biggest solar project in Guernsey?

A decision on the application for the 8.33 acre farm, which is a similar size to eight football pitches, will be decided at a later date. Nick Crolla, head of sales and marketing at Rubis, told BBC Radio Guernsey: "It is going to be the largest solar project in Guernsey."

What are Guernsey's on-Island initiatives?

Alan Bates, CEO at Guernsey Electricity, said: "These on-island initiatives are designed to increase the amount of electricity generated from local renewable sources. The electricity feeds directly into the island's network so that all our customers can benefit from locally generated, clean solar energy."

Where can I find information on Guernsey and Sark?

Information on Guernsey can be found on the States of Guernsey website (<http://www.statesofguernsey.gv>), and information on Sark is available at www.sark.gv. Both Guernsey and Sark are located around 80 miles south of the UK mainland and around 30 miles from the European continent.

Pathway F is to invest in innovative technologies alongside proven commercially viable technologies like solar and wind to grow the economy through sale of renewably generated electricity.

The uptake of Renewables is increasing and as such needs to be regulated to the same health and safety standards throughout Guernsey, the same as any other industry. Wind power, solar, tidal, biomass, and heat pumps are among a few technological comprise the ...
