

The independent power producer (IPP) project will be the first grid-connected photovoltaic (PV) array in Guinea. The PPA milestone was announced on Wednesday by InfraCo Africa, which is developing the project ...

Guinea: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Evklips Energy is a privately-owned Bulgarian company, specialised in the construction of different types of solar photovoltaic power plants: ground mounted, rooftops, carports, agri-PV and floating-PV.

Evklips Energy Ltd. | 1.928 volgers op LinkedIn. Switch on the SUN | Evklips Group was founded back in 1992. Throughout the years, we have built a strong corporate culture and have established reliable business partnerships. Our values, underling our business objectives, strategies, decisions and actions are fundamental to our success.

Guinea Conakry is blessed with considerable renewable energy resources that can, through associated project developments, position the country as a regional power producer. Specifically, the country's solar and hydropower potential have attracted the attention of international investors, leading to an influx in project developments.
