

New Fortress Energy, NFE, supplier of the gas that fuels most of Jamaica's electricity generation, is seeking partners to take on its local and regional assets. The deal would see investors partnering to finance the entity with cheaper debt or...

The company, headquartered in New York, USA, is transforming Jamaica's energy sector, as in addition to its engagements at JAMALCO, NFE is converting the Jamaica Public Service (JPS) plant in Bogue, St. James, from a diesel fuel to Liquefied Natural Gas (LNG)-powered facility.

Things are heating up in Clarendon, Jamaica, where our gas-fired, co-generation power plant is supplying steam to the neighboring Jamalco bauxite facility, and efficient, baseload power to the Jamaican grid. Commissioned in Q1 2020, the 150-megawatt plant is ...

The CHP plant, the only one of its kind in the Caribbean, will supply up to 100 megawatts of power to Jamaica Public Service Company's (JPS) national electricity grid as well as provide Jamalco with more than 280,000 pounds of steam per hour, improving the refinery's energy efficiency.

New Fortress Energy last Tuesday began commercial operations of its gas-fired combined heat and power (CHP) plant at the Jamalco refinery in Halse Hall, Clarendon, and hailed the development as another milestone achievement in Jamaica's transition to natural gas.
