

Will Hanergy be able to build solar-powered vehicles and garments?

Hanergy's plans for solar-powered vehicles and solar-powered garments largely draw on different technology developed by the US-based developers in which it has invested. Earlier this year, Hanergy agreed to establish a joint lab with bike sharing start-up Mobike, to research the use of thin film solar on bicycles.

What is a Hanergy solar?

The four models -- Hanergy Solar R, Hanergy Solar O, Hanergy Solar L and Hanergy Solar A -- are the first 100% thin-film solar power vehicles that can be commercialised, according to a press statement on Monday. Choose your newsletter by Renewables Now. Join for free!

What services does Hanergy offer?

For medium and large solar projects Hanergy with its partners provides all services needed, from finance/business modelling to final installation and maintenance. Building Integrated PV can bring you attractive green buildings by integrating solar power solutions in flat and slanted roof-tops, windows, facades, curtain walls and ceilings.

What does Hanergy do?

Hanergy provides a wide range of more cost-effective and convenient solar power application products with maximum mobility and flexibility for all daily life purposes. This form collects your name, email and content so that we can keep track of the comment placed on the website.

Will Hanergy stock resume trading in Hong Kong?

Mr Li has not been silent over the past two years, which he has spent battling Hong Kong regulators to allow Hanergy stock to resume trading while promoting grandiose plans to develop solar-powered automobiles. The Datong deal signed last week is the first investment commitment by Hanergy since its suspension.

Why was Hanergy suspended?

Hanergy's stock suspension was a "disaster" for the company, Mr Li said at the time, depriving it of a funding channel to service loans and funds raised through China's high-interest shadow financing sector. In its 2015 IPO prospectus, Hong Kong-listed Bank of Jinzhou revealed that it had \$440m in exposure to Hanergy debt.

The deal comes as China promotes solar power and other non-fossil fuel energy sources to help combat pollution and stimulate economies ravaged by a four-year commodities downturn that began in...
