Address. HBA Future Energy (Nigeria) Ark Towers, 17 Ligali Ayorinde Street Victoria Island-Lagos, Nigeria. Phone

In this course, you will learn what some of the current energy codes are, what has recently been adopted, and what changes are being projected for the future. A primary focus is placed on whether or not all-electric homes are the best option, how renewable energy works for gas distribution to homes, and do airtight homes make better homes. With the facts laid out, you ...

HBA Future Energy (formerly known as HBA Offshore) (HBA) was founded in January 2015 by a group of highly experienced and well-recognized industry leaders in Floating Production, led by industry veteran Hassan Basma.

HBA has entered into an agreement to develop and operate a 430MW Renewable Hybrid Energy Project for the production of 100,000 TPA Green Ammonia in Sri Lanka for long term offtake to the Japanese, expected to COD in 2025/2026.

HBA provides full project execution for nearshore & offshore windfarms and increasingly to the floating wind farm sector. Supported by global industrial partnerships, HBA provides a complete and complementary suite of services, from design and feasibility studies, thru to permitting and power purchasing agreements, project execution and commissioning, and asset management ...
